RESOLUTIONS.—Salt Lick Lodge, No. 622, F. & A. M., Salt Lick, Ky., June 23, 1910.—The solemn notes that betoken the dissolution of a earthly tabernacle has again alarmed our outer door, and another spirit has been summoned to the land where our fathers have gone before us.

Just before the dawn of June 22, 1910, the Grand Architect of the Universe called from our midst Brother Henry Willis. Therefore be it

Resolved that by his death our lodge has lost an honored Mason, who was a charter member, and the first master of our lodge; that his family has lost a kind and loving father, the community an honest and upright man.

His every day life and details thereof bespeak for him an abundant entrance into the chamber of the Most High.

CONGRESS adjourned for the summer Saturday night. The value of some of its legislation remains to be demonstrated, but it made appropriations well over a billion dollars for the session.

TEDDY is quoted as saying he may never make another political speech. That is too indefinite to be satisfying. But he lets it be known that if he is needed to save the G. O. P. he will not shrink the job.

THE Ohio State Democratic convention nominated Judson Harman for Governor to succeed himself, and endorsed him for President. The Democratic party might go farther and far worse for a candidate.

WHAT Campbell Canvill did to Claude Thomas in the 15th district Democratic Congressional primary Saturday was a plenty and then some. Canvill carried the county in the district except Bourbon and Woodford by a decisive majority, defeating Thomas by about 2,000. Many of his opponents will have a most nauseating dish of crow to consume now. There is much talk of a Republican candidate to oppose Canvill, with a bid for a Democratic blot.

Conley, on Butler's Branch, Sunday morning, June 26, 1910, of paralysis of the brain at 6:30 o'clock, and was buried the following day at 11 o'clock, a. m., in the family burying ground near here. She was a daughter of Squire Carpenter, who died in 1850, and was survived by two sisters, Mrs. W. S. Carpenter; Mrs. Dudley Hughes; one brother, Renny Carpenter; three children, Mrs. Chas. Conley, Mrs. James Conley and Mrs. W. E. Henry, all of this place. He was a man of great sympathy to the bereaved ones.

Mamma, darling, you have left us; Left us, yes, forever more; How we bear the pain and sorrow God alone does now know.

Heaven now has our treasure; Earth her lonely carter keeps; But the sunbeams always linger Where our dear mamma sleeps.

Mamma is gone but not forgotten; Never shall her memory fade; Sweetest thoughts shall always linger Around the grave where she is laid.

We shall miss her kind and willing hands, Her fond and earnest care; Our home is dark without her; We miss her everywhere.

As we see our loved ones decay, And the hopes so fondly cherish'd, Brighten but to pass away.

By one of our hopes grow brighter As we near the shining shore, For we know across the sea, Wait our loved ones gone before.

OUR MOTHER.—Oftentimes in years gone by have we poured out our heartfelt sympathy to those bowed in sorrow, little realizing that however great our sympathy was their sorrow was thousands of times greater. Today, the tender sympathy poured out to us can reach no cord where we can find relief. Not even is there any consolation in these words of the poet, that "There is no home here, no well defined, but what there's one vacant chair." But such must eventually be when the best and dearest of mothers has passed away.

Surrounded by her loved ones as the calmness of night began to enfold this drowsy world, Mrs. Mary McIntosh Gowan entered that eternal sleep Tuesday evening, June 21, 1910, at 8 o'clock.

For many weeks she had been ailing, and each day that passed the next she would be better, but all that tender hands and physicians could do was futile, and the onward march of death could not be stayed.

Mr. Tomlinson McIntosh, daughter of Thomas and Eliza McIntosh (deceased), began life's journey on the 23rd day of March,

1850, near Olympian Springs, Bath county, Ky. Being of a family of four girls it fell to her lot to care for an invalid father, and to comfort a sorrowing mother. How well her mother performed her part can be attested by those who knew her best. At the age of 19 she professed her faith in Christ by accepting Him under the preaching of Rev. Wellington Hiner at the old Olympian Springs Methodist Church. She always continued a firm believer in the great principles of Methodism, and tried in an unpretentious way to live up to their teachings.

On February 15, 1881, she was united in marriage to Daniel L. Gowan; he and three of the four children born of this union survive to mourn their loss. The children are Buford M., at home; Mrs. Anna May Ficklin, and Geo. H., at home. Philip S. died in infancy. Of her mother's family, she survives but two sisters: Mrs. Samuel F. Deal of this place, and Mrs. Thomas A. Manning, of near Middletown, Ohio. Deceased was a most devoted wife and mother, ever teaching her children the value of home and womanhood. She had created a tender home for all who came. She was the best of neighbors, always ready to go when the signal of distress was given. She had created a living memory in the hearts of scores of her friends.

Her last place at the Methodist Church in Mt. Sterling, Thursday morning, June 23, was a beautiful one. Her funeral was conducted by Rev. B. C. Horton, after which the remains were conveyed to their final resting place in the cemetery. Her body was laid to rest in the Methodist Church in Mt. Sterling, Thursday morning, June 23, at 10 o'clock, a. m.

The pall-bearers were J. H. Gillaspie, E. L. Fasset, Thomas H. Edwards, J. H. Fasset, John Sanders and James Leach, Sr.

We realize that in this hour of bereavement none of us can ever bring comfort of time can ever bring comfort to our bleeding hearts. Your loved ones bid you farewell, precious mother, may peace, sweet peace, forevermore be thine. We shall strive to live when life's dream is ended we can be reunited in that Haven of Rest beyond the stars.

Tobacco Crop Report.—By E. T. Roberts.—Lexington, Ky., June 25.—In my last week's report I stated that "practically all the crop was set, some papers jumped to the conclusion by eliminating the word 'practically'."

We were a week there was an unplanted percentage, but we felt that it was unimportant, and a few days of sunshine would deliver the plants, and before next week's report would be set; and in our surprise we were correct.

The largest crop in the State, tobacco, is estimated to be only about 225 acres last year, with a remainder of 100 acres to plant, yet the crop is not all planted, and the unplanted, was made complete by Wednesday night, as many other smaller crops.

We took in a fair scope of Sayette, Woodford and Franklin counties, and found the crop to be a good one, and while there are a few who have not planted every plant they proposed the percentage of the crop is small to compute, and even these belated crops will doubtless be planted within 48 hours, for there is plenty of moisture to admit of it.

Showers have come in the most timely manner, and the 17th, and again at the close of the week. These rains have covered the country from Bourbon, Clark, Montgomery, Fayette, Woodford and Madison, and no doubt have been pretty general.

The early planting has started off beautifully; corn and tobacco have made remarkably good progress the past week; the temperature was hot and forcing, and as the ground was well underlaid with moisture the growth was very rapid.

So far the crop starts off with a very promising outlook, and while the average farmer would be in distress if he didn't have a crop, he is not in a position to complain. There has been set a very fast pace here the past week, the heat of a political campaign in this district trying to excel the speed of the weather man's thermometer on the upward climb, but the heat is off, and the political retires for a season at least, though the wisecracks predict otherwise.

Our political pot will be boiling until November next. We hope not, however; politics and business make unprofitable companions.

THE YEAR WITHOUT A SUMMER.—The year 1816 has been called the year without a summer for there were sharp frosts in every month. January was mild, so was February, with the exception of a few days. The greater part of March was cold and boisterous. April opened mild, but grew colder as it advanced, ended with snow, ice and winter cold. In May ice formed one-half inch thick, buds and flowers were frozen and corn killed. Frost, ice and snow were common in June. Almost every green thing was killed and the fruit was nearly all destroyed. Snow fell to the depth of three inches in New York and Massachusetts, and ten inches in Connecticut. It was accompanied with frost and ice. On the 6th ice as thick as window glass was formed in New York, New England and Pennsylvania, and corn was nearly all killed in certain places. In August ice formed one-half inch thick.

A cold Northwest wind prevailed nearly all summer. Corn was so frozen that much was created dried for fodder. Very little ripened in new England, even here in Connecticut, and scarcely any even in the Middle State. Farmers were obliged to pay \$4 or \$5 per bushel for corn of the best quality, and for the next spring's planting. The next two weeks of September were mild, the rest cold with frosts and ice. On the 4th of October was colder than usual with frosts and ice; November was cold, with snow and frost enough for good sleighing. December quite mild and comfortable. —Hartford (Conn.) Times.
